DIGITAL SNAKE SYSTEM

mts

Touch Screen Remote Control

- » Dedicated system control
- » Can be used anywhere in the Momentum network*
- » Controls all functions of the digital snake, including mic pre-amps, phantom power, output attenuation, and routing functions
- » PoE 802.3af Compliant

* Multi-cast storm control must be enabled on control port.

DESCRIPTION:

The Momentum mts is the touch screen control for Pro Co Sound's second generation digital snake system. The mts provides a user interface for Momentum without

interference from spyware, viruses, and other pitfalls of personal computers.
